EXPERIENCE AND POWER AT YOUR SIDE

PEGA OTOMOTIV SUSPANSIYON SAN.VE TIC.A.S. was established in 2008 by a team well experienced on developing, manufacturing and marketing air suspension systems on the International market for years. The built up knowledge attained by multinational companies and the high quality products have brought PEGA's name up to its righteous place on the World market.

Pega, as a major air spring manufacturer, is competing with the sector leaders in 75 countries all over the World with a high quality products and a range of over 900 types. Our main strength is our target to gain a maximum customers' satisfaction by providing constant improvement, high quality products and reliable services, which is a sine qua non "a must " of our market. PEGA OTOMOTIV SUSPANSIYON SAN.VE TIC.A.S. is certificated according to ISO TS 16949:2009 and ISO 14001:2004 standards to prove its quality and willingness to strengthen its continuous improvement.

Warranty Information

Pega® air springs that use in Buses, Trucks or Trailers have Standard two-year limited warranty featuring no mi/km restriction against failure due to material or workmanship defects.

WARRANTY HAVE SOME EXCLUSIONS:

- If an external solid matter caused a defect to the air spring.
- Operation of the air springs without air pressure or under the min. riding height.
- Over extension.
- Overloading the vehicle.
- Misalignment.
- Wrong installation.
- Using air spring in incorrect place.

TWO YEAR WARRANTY

Pega® air springs have been designed to provide thousands of miles or kms of trouble free service. The durability of Pega® Air spring is such that they will often outlast other maintenance items; such as shocks, bushings and levelling valves or other concerned parts related to the suspension system of vehicle. Pega® air springs are warranted to be free of material defects and/or workmanship for 2 years, depending upon the application. Free replacements may be provided by the manufacturer, dealer or by any Pega® air spring distributor (for details, please contact with customer representative). Since each individual air spring is closely examined and pressure tested at our production plant in Bursa, TURKEY. The vast majority of premature failures and consequent warranty returns are found not to be defected, but fail because of abuse caused by other problems associated with the suspension. Before you install a new air spring, you should carefully examine to determine what caused it to fail. If there was any problem in the suspension system, then the new air spring will also fail unless you correct the problem.

IMPORTANT DETAILS
